

Houseparty

See who is on Houseparty even when you're not online. Say Hi to your friends as you browse the web.

Houseparty is the face-to-face social network where you can connect with the people you care about most.

The app makes video chat effortless, alerting you when your friends are “in the house” and ready to chat so you can jump right into the conversation.

The same goes for you opening the app! Your friends will know you're in the app and ready to talk (because calls are so last year).

Houseparty is truly the next best thing to hanging out in person. See your friends more often on Houseparty.

Check out Houseparty here <https://houseparty.com/>

Download the app on a mobile phone, sign up, get started.
